

# 2/3 MEGAPIXEL

## inch Machine Vision Lens

Made in Japan

# 16<sub>MP</sub> MPX Series

- Compact and lightweight design ( $\phi 31.8$ )
- Anti-vibration (10G) and shock resistant design (10G)

COMPATIBLE  
SENSOR

- IMX536 (546/566)/ IMX537 (547/577)/ IMX676/ IMX226/ IMX178
- Compatible with Sony Pregius S 4th Generation

## New standards for high-resolution machine vision lenses.

- Anti-vibration (10G) and shock resistance design (10G) to adapt to harsh inspection environments
- High-resolution lens 2 $\mu$ m or less pixel size supported
- Floating mechanism enables high performance from close-up to long distance
- Precise focus adjustment with a focus rotation angle 3 times greater than usual lenses
- Adoption of click-type iris mechanism

$f = 5.5\text{mm} / 8\text{mm} / 12\text{mm} / 16\text{mm} / 25\text{mm} / 35\text{mm} / 50\text{mm} / 75\text{mm}$
